

STATEMENT OF PURPOSE

RS21614

This bill creates the Idaho Technology Authority by amending 67-5745, 67-5745B, & 67-5745C, Idaho Code, to modify the purpose, composition, and responsibilities of the Information Technology Resource Management Council. This aligns the purpose, composition, and responsibilities to focus on issues impacting technology operations of Idaho state government.

FISCAL NOTE

There is no increase in General Fund appropriation. An existing General Fund appropriation of approximately \$79,200 currently used by the Information Technology Resource Management Council will be used by the Idaho Technology Authority.

There is no increase in dedicated fund appropriation. An existing dedicated fund appropriation of approximately \$568,000 currently used by the Information Technology Resource Management Council will be used by the Idaho Technology Authority. The source of this dedicated fund is an allocation to all state government organizations as a component of the Statewide Cost Allocation Program.
